

# INTIMATE IMAGES, THE INTERNET, AND YOUR PRIVACY

A Legal(ish) Infographic by the Reclaim Pro Bono Project x Ontario Justice Education Network

## IDENTIFY THE ISSUE

Sextortion and sharing intimate images without permission is a very common form of abuse, especially with youth who use technology

## MYTHS + STEREOTYPES

Myths and stereotypes are societally fabricated to blame victims and maintain a narrative of shame. The goal is to support victims unconditionally and help is always available

### THE TERM 'REVENGE PORN' IS HARMFUL

It's not revenge  
It's not porn  
It's not entertainment

## STATS

6 - Avg. number of social media platforms used each month  
54% of Canadian social media users are female  
7.3% - age 18-24  
13% - age 25-34

## THE LAW

There are two legal avenues of recourse: criminal + civil. You can proceed with one, both, or neither. Healing from this abuse is dependent on several factors and justice looks differently for everybody

## WHAT CAN TEACHERS DO?

- \* unconditional support
- \* encourage evidence preservation
- \* identify prevention practices
- \* talk to students about resources
- \* stay tech savvy
