

BEAD WORK

- Beadwork can get your mind off of stuff. (stress, anger, sadness.) Or you can do it for fun.

You can make different designs

for bead work, like these pictures. Example for different items: moccasins, slippers, gloves/mitts, wallets, hairclips, earrings, necklaces, bracelets etc. There are other stuff Aboriginal people make with bead work. Some give it as a gift, some sell their items. Bead work is a good way to get money, because beadwork is truly beautiful, and takes time to finish. But it is worth the time to do.

:)
